Color: **Black**

Size: **30CM**

Brand	EZDIY-FAB
Connector Type	Pcie
Cable Type	PCIe
Compatible Devices	RTX 50-series, RX 9000 GPUs
Special Feature	Braided, Heat Resistant, High Speed, Low Voltage, Tangle Free

About this item

- **【GEN5 X16, 128 GB/s】** PCIe 5.0 delivers up to 64 GB/s unidirectional and 128 GB/s bidirectional bandwidth, Future-proof and ready for RTX 5090, 4090, and RX 9000/7000 series. Fully backward-compatible with PCIe 4.0/3.0/2.0/1.0.
- **【 6-LAYER PCB & FULL-LANE SHIELDING 】** Individually wrapped high-speed lanes inside a 6-layer board crush crosstalk and EMI, keeping data errors ultra-low to stop black screens and random crashes.
- **【 ULTRA-FLEX TPE CABLE 】** –Premium TPE jacket bends sharply without kinks, perfect for tight ITX builds or showcase vertical mounts while resisting wear and tear.
- **【 REINFORCED METAL SLOT & PRECISION COPPER CONTACTS 】** Metal shell blocks external interference, while tight tolerance copper pins lock in rock-solid connections—even under heavy GPUs—eliminating intermittent signal drop-outs
- **【CHOOSE YOUR PERFECT FIT】** Available in 200mm and 300mm lengths with 90° and 180° connector options, this flexible PCIe 5.0 riser cable is ideal for clean, efficient vertical GPU setups.
- **【Universal Fit & Case Guide】** Adjustable 103.5-130.5mm slotted base natively fits 7000D Case. Recommended 200mm for Mid-Towers (O11 Vision, H6/H7/H9, North, King 95) and 300mm for Full-Towers (NV7/NV9, Hyperion).

We strives to develop top quality and superior computer accessories.

EZDIY-FAB

About us
Founded in 2016, EZDIY-FAB offers diverse PC components at a great value for gamers around the world.
We care customer's using experience,we strive to find out the problems encountered in assembling PCs, and propose easy solutions with excellent designs for the users. This is perfect match with our brand name"EZDIY" means Easily DIY your PC build.

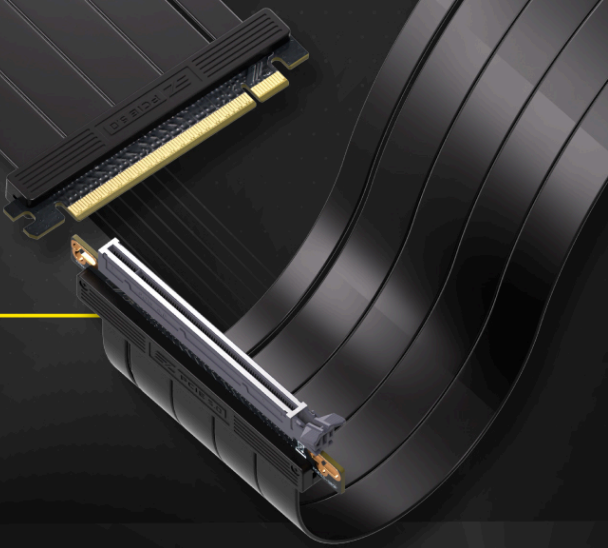

UNIFIED CAB

Product description

PCIe 5.0 x16 RISER CABLE

BLACK 180-DEGREE

Direct GPU Plug-In
Horizontal Placement

Equals to

**Riser Cable Plug-In
Vertical Placement**

Robust and stable signal transfer

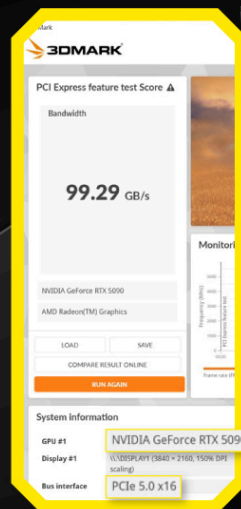

Just like connecting the GPU directly to the motherboard's PCIe16 slot, the signal transmission is stable and reliable, ensuring full PCIe 5.0 bandwidth without performance loss or interference.

PCIE 5.0 Riser Cable Bandwidth Test

Proven Performance with 3DMark Benchmarking

Verified by 3DMark tests, the EZDIY-FAB PCIe 5.0 Riser Cable delivers full x16 bandwidth with zero performance loss—ensuring stable, high-speed GPU performance.

Durable

Protective

Flexible

Verified

Gold-plated connectors and a shielded PCB

Provide stable output with no FPS loss, enabling PCIe 5.0 speeds 2× faster than PCIe 4.0.
