

LAN8720 MODULE

Ethernet module, 10/100 Ethernet Transceiver LAN8720 onboard

Features

- High-Performance 10/100 Ethernet Physical Layer Transceiver (PHY)
- Supports single 3.3V supply
- Supports the reduced pin count RMII interface
- Supports HP Auto-MDIX
- Onboard chip package: 24-pin QFN (4x4 mm) Lead-Free RoHS Compliant package
- Flexible Power Management Architecture
- Integrated 1.2V regulator
- I/O voltage range: +1.6V to +3.6V

Applications

- Embedded web server
