Male USB A to Female USB A USB Cable, USB 2.0

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This male-to-female USB A to USB A cable supports USB 2.0 technology for fast data transfers when connecting remote devices. Its male connector plugs into the female socket on your computer. The cable flex is one metre long and has an outer diameter of 4.7 mm. Its durable PVC sheath protects the copper wire conductors within from temperature changes. There's also a drain wire inside the cable for effective grounding and foil shielding to reduce electrical interference.

General Specifications
