tinned copper drain wire (SG) to maintain signal integrity in electrically noisy environments common in industrial automation.

- Multiple Length Options: Available in 1M/3.28ft, 2M/6.56ft and 3M/9.84ft lengths to meet diverse usage scenarios, from short-distance desktop peripheral connections to long-distance industrial equipment wiring. Choose the perfect length for your specific needs without unnecessary excess or shortage.
- Durable & Flexible Construction: Crafted with high-quality, flexible jacket material that resists bending, abrasion and daily wear, ensuring long service life even with frequent use and movement. The sturdy PS/2 connector features secure contacts for a tight, stable connection that won't loosen over time.

Reverend L.S. Goodwin

Great for wiring jobs involving a radio with 6 pin mini DIN plug, such as Yaesus & Icoms.

Reviewed in the United States on May 23, 2026

Size: 3.28ft/1m [Vine customer review of free product](#)

I needed to connect an M17 digital radio module to my Yaesu FT-7900 so I started looking for mini-DIN connectors and wire to build a cable. Then I came across this one which was already half built! Putting it into action was as simple as soldering the bare wire end to a DB9 connector...I was up and running in just moments! It works flawlessly for this purpose and I couldn't be more pleased with the item.
