## Product

Waterproof and Dustproof Meter

BE-72 IP65

Ammeter IP65

Voltmeter IP65

## FUNCTION

DIN rail meter

Ammeter/current meter/ampere meter

BE-48 48\*48mm

BE-72 72\*72mm

BE-80 80\*80mm

BE-96 96\*96mm

BE-96W wide angle 96\*96mm

BO-52 DIA.67.6mm

BO-65 DIA.84mm

BP-15 edgewise meter 66\*24mm

## Our Company

---

**KDS INSTRUMENT (KUNSHAN) CO., LTD. ("KDSI")** is a manufacturer specializing in production of power distribution panel mounted instruments. The main products made by KDSI include various types of AC and DC voltmeter, ammeter, frequency meter, power meter and power factor meter; a variety of digital display electrical meters, smart control instruments, multi-functional meters for power grid, current transformers and shunts; and various kinds of instrument parts, plastic injection and bakelite molding. The company has a team of intermediate & senior technicians and engineers who have long engaged in the instrument profession. The company has implemented the computerized management system and introduced advanced digital standard meters as reference in the production.

### Six Advantages

---

- 1. BRAND** 20 years of experience, and a global supplier for voltmeters and ammeters with a professional team.
- 2. QUALITY** All of our products are made of new materials that can withstand the high temperature up to 180 degrees centigrade, and they are certified to the European Union CE and ISO9000.
- 3. APPLICATIONS** Wide Range of Applications, Distribution Cabinets, ships, Audio and Stage amplifiers, welding machines and so on.
- 4. LEAD TIME** Short lead time, only approximately three days for normal specifications.
- 5. PRICE** Cost-effective ,with the lowest price compared with those in the same quality.
