

WELDING HEAD CLEANING

Highlight

Usage :

- Put the tip into the metal wire of the cleaner in order to clear away the residual solder.
- Don't take out the metal wire to sweep the tip, since it is springy ,will possibly splash the melted residual solder .be carefully while using it
- Please wear your gloves when exchange the metal wire. Be careful not to break the solder on .Please put the cleaner uprightly when open it.

Feature of Product :

- The iron clean mouth is the new generation of iron clean tool, smokeless, is tasteless, non-toxic, does not have the pollution,
- One kind of ball color environmental protection tool auxiliary. Saves the energy is lower than the common iron clean sponge cost,
- Dose not use the watering, facilitates durably can effectively maintain the iron the temperature in the clean tinsel include helps welds with the clean ingredient.

Welding Head Cleaning

Feature :

1. Used for eliminating the temperature variation of soldering tip.
2. High quality brass and heavy-duty stainless steel base.
3. SS 599B soldering iron tip clean ball to remove oxides of effects of non-cleaning sponge.
4. This production is developed for reduce the lowering of temperature of tip when cleaned . This cleaner don't need water while working .
5. Can avoid splashing of residue and clear away the residual flux completely.
6. Compatible with RoHs Standards.
