KCD5-303 Inline Cord Switch SPST

The KCD5-303 inline power cord switch SPST is perfect for when you just want a simple on/off switch that is included. Inside is a simple rocker switch with solder terminals with crimp stress relief. Connect some wires, solder them in place, and press the housing together, and you have a clean-looking switch. 303 inline switches are widely used in home lighting, such as desk lamps and floor lamps. The colors of white and black are standard colors. If you need other colors, please [let me know](#) and I will check and reply to you. For this switch, we have single port and dual port.
