

Soldering Iron Cleaning Sponge Tip Repair Tools Sponge

Soldering Iron Tip Cleaning Sponge

Product details of

- Condition: Brand new
- Material: High-quality sponge
- Color: Yellow
- Sizes (Approx.): 6×6cm
- Quantity: 100 pieces per pack
- Purpose: Removes solder residue, helps maintain clean PCB components
- Use Tip: Soak in water before use – sponge will expand and provide effective cleaning
- Benefits:

- Strong absorbency
- Helps with tinning and oxidation prevention
- Durable and long-lasting

Keep your soldering iron tips clean and efficient with these high-quality yellow sponges. Designed specifically for removing solder residue and maintaining PCB cleanliness, these sponges expand when moistened, providing excellent absorbency for cleaning tips during use. Perfect as replacements for old or worn-out sponges, they help improve soldering performance by supporting better tin flow and reducing oxidation. Simply soak in water before use for best results.
